

## Our Mission

Eden Valley Trails is dedicated to building and maintaining a sustainable and interconnected trail system in Ogden Valley, Utah that welcomes and accommodates all trail users. Our mission is to establish a network of thoughtfully designed trails that weaves through the natural beauty of the valley and fosters a sense of community and connection with the outdoors. With a focus on responsible trail development and collaboration with local communities, we aspire to connect people by creating recreational opportunities for hikers, bikers, runners, equestrians, and nature enthusiasts alike, while preserving the ecological integrity of Ogden Valley.

## Your Impact

Our goal is to connect the Ogden Valley with 50 miles of new trail over the next 5 years. This cannot happen without your help and support. Please consider a generous cash donation to Eden Valley Trails so that we can keep our trail building crew busy planning, designing and building these amazing trails
